

## RESUME

Richard Stanley Huntrods  
888 258-0238

### **Work History:**

2001 - present: Course Coordinator, Athabasca University, School for Computer and Information Science (SCIS). Responsible for writing, revising, coordinating and instructing a number of courses at the undergraduate and graduate level, as well as supervising graduate students.

1998-2001: Instructor and Coordinator (Program Chair), Southern Alberta Institute of Technology. Managed the Computer Technology Program (CT) and later the Computer Control Technology Program (CCT). Responsibilities included student enrollment and guidance, course and program planning, staff hiring and management as well as maintaining a partial teaching load.

1989-present: Consultant. Developed computer programs and Information Technology training for numerous clients, both national and international. Details available upon request.

### **Technical Skills:**

Computer programmer - specializing in C, C++, Java, FORTRAN, Perl, and any other language you require ("give me a book and a week to come up to speed").

Information Technology Instructor specializing in computer language instruction; have also developed and delivered courses in many areas of Information Technology, including (but not limited to) Oracle, Unix, Computer Security, Systems Analysis and Design, and Microcontrollers.

### **Personal:**

Glassblower since 1990, recently building and operating my own hot glass studio in my backyard ("Tin Shack Studio").

SCUBA diver since 2000. I dove for many years in the Alberta mountain lakes. I currently dive using a PRISM rebreather near Nanaimo on Vancouver Island, B.C.. My diving interests include taking pictures and video of the various marine life found in the B.C. coastal waters.

Pictures of my glassblowing, the studio and my dives are available on my web site "<http://huntrods.com/>".

References are available on request.
